

Digital Adoption Solutions

Enhance product experience and user adoption to maximize return on software investment

A recent [research](#) study focused on employee engagement and retention stated that 79% of respondents reported being disengaged at work to some degree, leading to low job satisfaction and engagement.

Sales turnover [stats](#) have show that it is essential to understand and invest in proper training to have team members start off on the right foot. Doing so without interrupting the day to day workflow is another key component to avoiding debilitating factors such as information overload. Connecting users with only the information they need to do their jobs in a timely manner is essential.

Xactly Show Me™ is designed to improve the user experience and increase adoption of Xactly products by providing targeted user support and alerts to drive engagement. It also provides administrative users deep analytics to audit content, and segmentation capabilities.

BUILD GUIDES WITH TARGETED PLACEMENT

Leverage an intuitive user interface to create guides and place them in Xactly solutions.

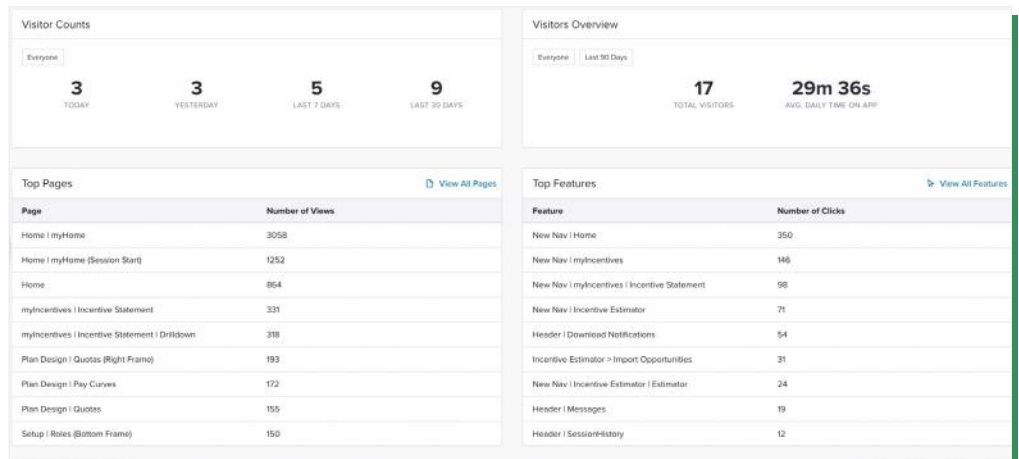

GENERATE IN-APP MESSAGES

Share need to know information, reminders and organizational updates to maintain consistent communication.

UTILIZE USER SEGMENTATION

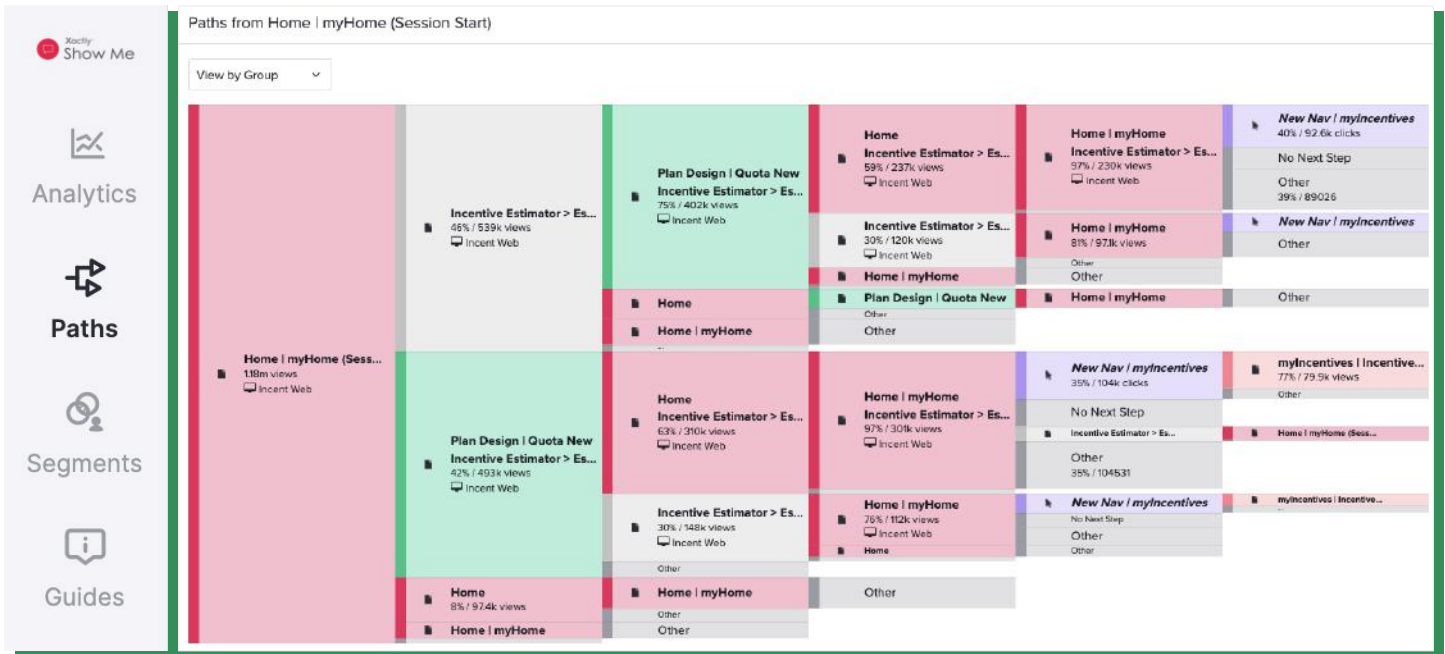

Create, edit and maintain user segments to drive more targeted messages and content based on role, time in role and more.

ACCESS CLICK PATHS AND USAGE ANALYTICS

Monitor usage analytics to determine if help content is being used, or where it may be needed. View click paths, identify where users are dropping off, and adjust content placement to ensure users are getting the most out of the solution.
