

Employee Performance Management

Drive performance and revenue by aligning employee behaviors with company goals

Inspiring day-to-day achievement, while ensuring an employee's work aligns with company objectives has always been a challenge. And bonus plans based solely on company performance don't accurately reflect individual effort and contribution.

Xactly Objectives addresses these challenges by aligning employee behavior and rewards with company priorities by increasing collaboration and visibility into goals and achievement. With performance management software, Sales teams can assign, track and evaluate their management by objectives (MBO) plans easily to keep employees engaged, focused and motivated.

MOTIVATE PERFORMANCE

Reps and managers work together to solidify MBO plans to:

- ▶ Increase rep engagement and inspire performance with more involvement and visibility into goals.
- ▶ Allow Sales reps to visualize bonus payments based on progress against their goals at any time.

INCREASE REP AND MANAGER ALIGNMENT

Increase alignment between reps and managers to:

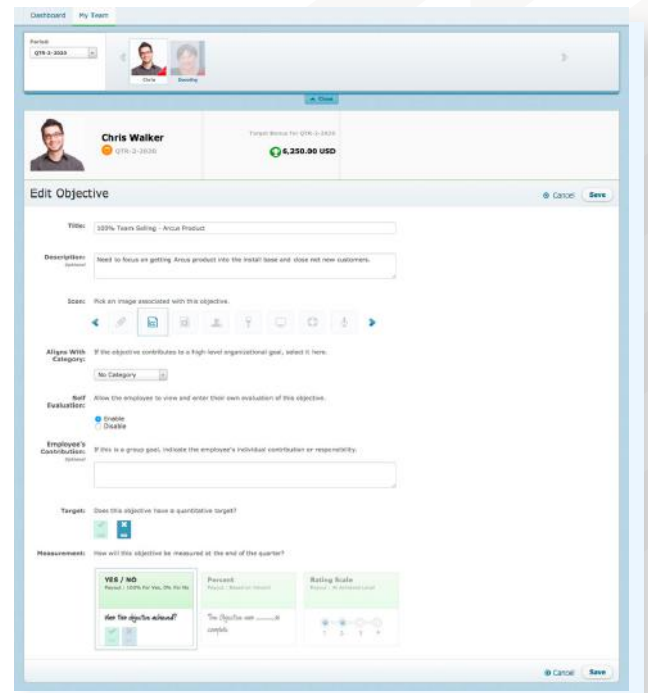

- ▶ Define measurable and agreed-upon goals.
- ▶ Estimate individual contribution achievement so differences are clearly visible, ensuring no last minute surprises.

AUTOMATE AND STREAMLINE MBO PROCESSES

Compensation administrators can customize and deploy MBO plans that align with internal processes, and set goals based on flexible time periods to easily manage them using automation to:

- ▶ Decrease managers' time spent on MBO processes from weeks to hours.
- ▶ Reduce managers and rep time spent scoring performance time to minutes.
- ▶ Utilize out-of-the-box capabilities to leverage existing Xactly Incent® data to populate the system with the same people hierarchy.

DRIVE FASTER AND MORE ACCURATE ACCRUALS

- ▶ Using manager and rep projected payouts, administrators can give finance faster estimates on expected payouts to speed up and increase the accuracy of accruals.
